Subject: Mediators for the EPA Bristol Bay Public Meetings

Hi Dan and Heidi,

I hope you are having a fun and relaxing time in the desert. We found that being among all the green in California was rejuvenating. Coming back to winter was a bit difficult. Coming back to breakup might be a little easier given the promise of green to come a few weeks later.

I got a call from one of the EPA community liaison folks. She was looking for inside knowledge on Alaska mediators who might be able to facilitate our Bristol Bay Assessment public meetings. They are expected to draw big crowds and be very contentious. We have a list from our mediation services section in DC. I am encouraging her to select someone who has lots of experience dealing with large and very contentious issues.

Dan is on the list from DC. I am interested in talking with you about others, in and out of state. However, if you feel that you might be interested in submitting a bid for this work then I imagine you need to keep an arms length. Please call me if you don't mind stepping back into the work-a-day world and you get a break form your activities there. I'd like to chat.

Thanks
Phil
